---

## Objective

Full time second-year student & hopeful actuary specializing in experimental design, data cleaning & analysis, and predictive modeling.

## Technical Skills

- Data Cleaning, Analysis, & Report Writing with Statistical Software (JMP, R, SAS, Markdown, LaTeX)
- Experimental Design (Response Surface Methodology, Block Designs, Effects)

## Soft Skills

- Communication
- Precision
- Problem Solving
- Results-oriented thinking

## Experience

- **Server**, *Bobboi Natural Gelato, San Diego, CA* **Nov 2020–Aug 2021**
- **Caterer**, *Cal Poly Corporation, San Luis Obispo, CA* **Sep 2022–Present**
  - Prepares settings for large events with attendance exceeding 200
  - Provides hospitable services for guests
  - Coordinates with small and large teams of 20+ members to maximize efficiency

## Education

- **Diploma** **May 2021**
  - Eastlake High
  - GPA 4.3
  - Varsity Wrestling, Associated Student Body
  - Principal's Honor Roll, College Board National Hispanic Recognition Program
- **Bachelor of Science** **In Progress**
  - California Polytechnic State University – San Luis Obispo
  - GPA 3.0
  - STAT Club
  - Major in Statistics, minor in Actuarial Preparation

## Relevant Coursework

- Calculus I-IV
- Methods of Proof in Mathematics
- Linear Algebra, Linear Modeling
- Experimental Design I, II
- Probability and Simulation
- Programming with R, SAS

## Projects

- [League of Legends: LCK 2023 Spring Split Trend Analysis](#) **In Progress**
  - Small ongoing passion project fitting regression models to investigate trends in win frequency for the League of Legends LCK.
